

The Shin lab (<https://www.sculptingregeneration.org>) in the Department of Pharmacology and Regenerative Medicine at the University of Illinois at Chicago College of Medicine is currently seeking an academic hourly Research Specialist to join. The successful candidate will participate actively in the execution of research projects and ensure smooth functioning of the lab's day-to-day activities.

Responsibilities:

- Perform experiments: e.g. cell culture, molecular biology (qPCR, cloning), microfluidics and microscopy
- Prepare reagents: e.g. polymer dialysis, conjugation, autoclaving
- Perform lab ordering, stock inventory, and maintenance of lab records/protocols
- Assist lab members

Qualifications:

- Bachelor's degree (Masters preferred) in biomedical engineering or science
- At least 2 years of wet-lab research experience (3 or more years preferred)
- Have strong organization skills and ability to work collaboratively and independently

To apply, please send a CV including the names of two potential references to [shinjw@uic.edu](mailto:shinjw@uic.edu)

The University of Illinois at Chicago is an Equal Opportunity, Affirmative Action employer. Minorities, women, veterans and individuals with disabilities are encouraged to apply. The University of Illinois conducts background checks on all job candidates upon acceptance of contingent offer of employment. Background checks will be performed in compliance with the Fair Credit Reporting Act.
