

The Department of Pharmacology and Regenerative Medicine at the University of Illinois at Chicago seeks candidates for a research specialist (biomedical research laboratory technician) position. The Department offers an intellectually exciting, collegial and supportive environment with robust research programs.

Primary responsibilities:

Culture of induced pluripotent stem cells

Differentiation of stem cells

Isolation of mRNA or protein from differentiated cells or organoids for qPCR or Western blotting

Breeding and genotyping of mice

Bachelor's degree in the life sciences including but not limited to Biology, Molecular Biology, Cell Biology or Biochemistry. Knowledge of fundamental research concepts, practices and procedures. A minimum of 3 years related research experience. Entry level knowledge of research methods. Experience with stem cell culture and differentiation is preferable. To apply, please email a cover letter, CV, and the names and the contact information for two to three references to <https://jobs.uic.edu/job-board/job-details?jobID=156995>.

University of Illinois faculty, staff and students are required to be fully vaccinated against COVID-19. This employment offer is contingent on your timely submission of proof of your vaccination. If you are not able to receive the vaccine for medical or religious reasons, you may seek approval for an exemption in accordance with applicable University processes.

As an EOE/AA employer, the University of Illinois encourages applications from individuals regardless of an applicant's race, color, religion, sex, gender identity, sexual orientation, national origin, and Veteran or disability status. The University of Illinois conducts background checks on all job candidates upon acceptance of contingent offer of employment. Background checks will be performed in compliance with the Fair Credit Reporting Act. The University of Illinois System requires candidates selected for hire to disclose any documented finding of sexual misconduct or sexual harassment and to authorize inquiries to current and former employers regarding findings of sexual misconduct or sexual harassment.
