

The Department of Pharmacology at University of Illinois College of Medicine in Chicago is seeking candidates for an Assistant Professor appointment in Stem Cell Biology and Regenerative Medicine. Candidates should have an outstanding record in areas such as: 1) stem cell biology; 2) differentiation signaling mechanisms; 3) genome editing tools in regenerative biology; 4) reprogramming; 5) lineage tracing analysis, or 6) regenerative medicine. NIH funding is recommended for Assistant Professor candidates. The department has strong research and training programs (<http://mcp.h.uic.edu/home>) and consistently ranks among the top 10. Successful candidate is expected to develop a competitive interdisciplinary research program. A highly competitive startup package will be offered. All candidates are required to have a PhD, MD or equivalent doctoral degree, as well as an outstanding publication record of the above mentioned departmental program areas. For fullest consideration, apply at the link: <https://jobs.uic.edu/job-board/job-details?jobID=151814>

The University of Illinois at Chicago is an Equal Opportunity, Affirmative Action employer. Minorities, women, veterans and individuals with disabilities are encouraged to apply. The University of Illinois conducts background checks on all job candidates upon acceptance of contingent offer of employment. Background checks will be performed in compliance with the Fair Credit Reporting Act. The University of Illinois System requires candidates selected for hire to disclose any documented finding of sexual misconduct or sexual harassment and to authorize inquiries to current and former employers regarding findings of sexual misconduct or sexual harassment.
