Eastern Illinois University Assistant Professor in Engineering Technology & Industrial Distribution Position Announcement

Starting Date: August 16, 2024

Position: Tenure track faculty position in the Eastern Illinois University School of Technology for Engineering Technology-Industrial Distribution undergraduate program and/or the Masters program in Technology.

Responsibilities: The successful candidate will be responsible for teaching undergraduate and graduate-level engineering technology, logistics, or technology management courses. This is a 9-month full-time tenure track position. The typical workload per semester includes 3-4 courses in a combined classroom and laboratory environment. Service to the academic and local community and conducting research is also required. In addition, mentoring undergraduate and graduate students in technology-related research, and contributing to assessment and accreditation processes are expected. Commitment to diversity and inclusive excellence is required.

Qualifications: A minimum of a doctorate degree in engineering technology, industrial engineering, technology management, or logistic operations-related field from a nationally accredited university is required. Preference is for applicants who have industrial and/or teaching experience. The successful candidate will have excellent oral and written communication skills and outstanding teaching abilities. Demonstrated commitment to diversity and experience in promoting inclusive excellence are required.

Closing Date: Review of applications will begin November 13, 2023 and continue until campus interviews are scheduled.

Applications: Candidates for this position should submit the following: 1) a letter of application indicating how the candidate's background and credentials meet the position's responsibilities and qualifications; 2) a current vita; 3) a list of names, addresses, phone number, and email for three professional references; and 4) a copy of transcripts for **all** undergraduate and graduate coursework completed (may be unofficial for application purposes); official transcripts from doctorate degree-granting institution are required for appointment. Applications can be submitted to Interfolio at http://apply.interfolio.com/133798.

Diversity and Inclusion: Eastern Illinois University is committed to fostering a learning community where all members feel welcomed and valued. The university provides equality of opportunity in all areas of campus life and we strive to recognize and appreciate the unique value of our students, faculty, and staff. Every member of campus has the right to learn and work in an environment free of discrimination and harassment, and beyond that, our goal is for all members of our community to develop a strong sense of belonging to Eastern Illinois University.

The University and Community: Eastern Illinois University (EIU) is a comprehensive state university in a community of 20,000 in east central Illinois. Enrollment at the university is approximately 9,000 and growing. Eastern offers faculty a wide range of research and public service activities. The university is in east central Illinois and combines the benefits of a community of 20,000 with access to several large cities, including Chicago, St. Louis, and Indianapolis.

As primarily a teaching institution, EIU is dedicated to quality learning in classroom settings. The EIU School of Technology serves over 1,000 undergraduate and graduate students. The school offers bachelor's degree programs in Computer and Information Technology, Construction Management, Digital Media Technology, Engineering Technology, and Organizational Development. Graduate Degree programs include the M.S. in Technology, M.S. in Cybersecurity, M.S. in Sustainability, and M.S. in Talent Development. The selected candidate will be appointed as a member of the School of Technology. The candidate must be a highly motivated team player to assist in the continued growth of these programs.
