

An Assistant Professor position is available in the Department of Pharmacology and Regenerative Medicine. Candidates should have an outstanding record in areas such as: 1) stem cell biology; 2) differentiation signaling mechanisms; 3) genome editing tools in regenerative biology; 4) reprogramming; 5) lineage tracing analysis, or 6) regenerative medicine.

NIH funding is recommended for Assistant Professor candidates. The department has strong research and training programs (<http://mcph.uic.edu/home>) and consistently ranks among the top 10. Successful candidate is expected to develop a competitive interdisciplinary research program. All candidates are required to have a PhD, MD or equivalent doctoral degree, as well as an outstanding publication record of the above mentioned departmental program areas.
